Forecast for Saturday 25 Sep 2021

Weather: A cloudy start to the day with extensive hill fog and some patchy light rain. This will lift and break through the morning to leave some dry, brighter weather for the afternoon. However low cloud and occasional light rain is likely to linger across western fells.

Chance of cloud free mountain/hill tops above 800m: 60%

Visibility: Poor in extensive cloud down to 400 to 600 metres at first, this breaking up through the morning, but may well linger across western fells for much of the day, this most likely west of Bassenthwaite down to Coniston. Elsewhere visibility improving with patchy cloud above 700 metres by afternoon.

Meteorologist's View

Becoming quite warm at lower elevations in any afternoon sunshine. Best chance of cloud free fells will be across the east of the Park.

Forecast for Sunday 26 Sep 2021

Weather: Largely dry throughout the day, a little early drizzle across the south. Overnight low cloud lifting through the morning to leave some bright or sunny periods, although still some patchy low cloud across the southwest of the Park. Southerly winds strengthening in the afternoon with summit gales by evening.

Maximum wind: Southerly winds with average speeds increasing to 25 mph in the afternoon with gusts to 40 mph, and gusts to 50 mph on the higher summits after dark.

Chance of cloud free mountain/hill tops above 800m: 80%

Visibility: Poor in patchy low cloud down to 400 metres, this lifting though the morning with some patchy cloud above 800 metres in the afternoon. Otherwise good visibility, perhaps some haziness in the air.

Temperature: **Valleys:** Plus 12 rising to 20 Celsius
At 800m: Plus 12 Celsius
Freezing level: Above summits
